

# Introduction to Blender

Lailei Huang, Technology Programs Officer

The Learning Space

## Agenda

Introduce Yourself

About this Class

Project - Session 01 Steps

## 01 Introduce Yourself

Short Intro e.g., name & job

Previous experience with Blender?

Why taking this class and what's your goal (e.g., short-term, long-term)?

## 02 About this Class

- This is a beginner-level class, assume no prior knowledge
  - E.g., Button & Menu > Shortcut Key
- We use project-based learning - “Create a Simple House Scene”

## 02 About this Class Philosophy

01 

Learn,  
encourage &  
improve  
together

02 

Practice,  
practice,  
practice

03 

Utilize the vast  
learning  
resources out  
there

## 02 About this Class

### Class plan

Session	Project Steps	Blender Foundation
Session1	01 Design your house outline	01 How to add & use an addon
	02 Implement your design in Blender	02 Blender Interface & basic operations
	03 Add Door and Windows	03 How to Navigate in 3D space
	Bonus	04 Move a 3D object

# Class Plan

Session	Project Steps	Blender Foundation
Session1		
Session2	01 Complete the house (e.g., roof) 02 Model house landscape (e.g., fence, trees)	Hard surface modeling essentials
Session3	01 More on landscape 02 Decorate the house and landscape 03 Next steps	More on modeling Material, texture, 3D model formats,

## Project - Step 1

Design an  
outline of  
your house

Keep it simple for now:  
- No more than 8 walls

## Project - Step 1

Design an  
outline of  
your house

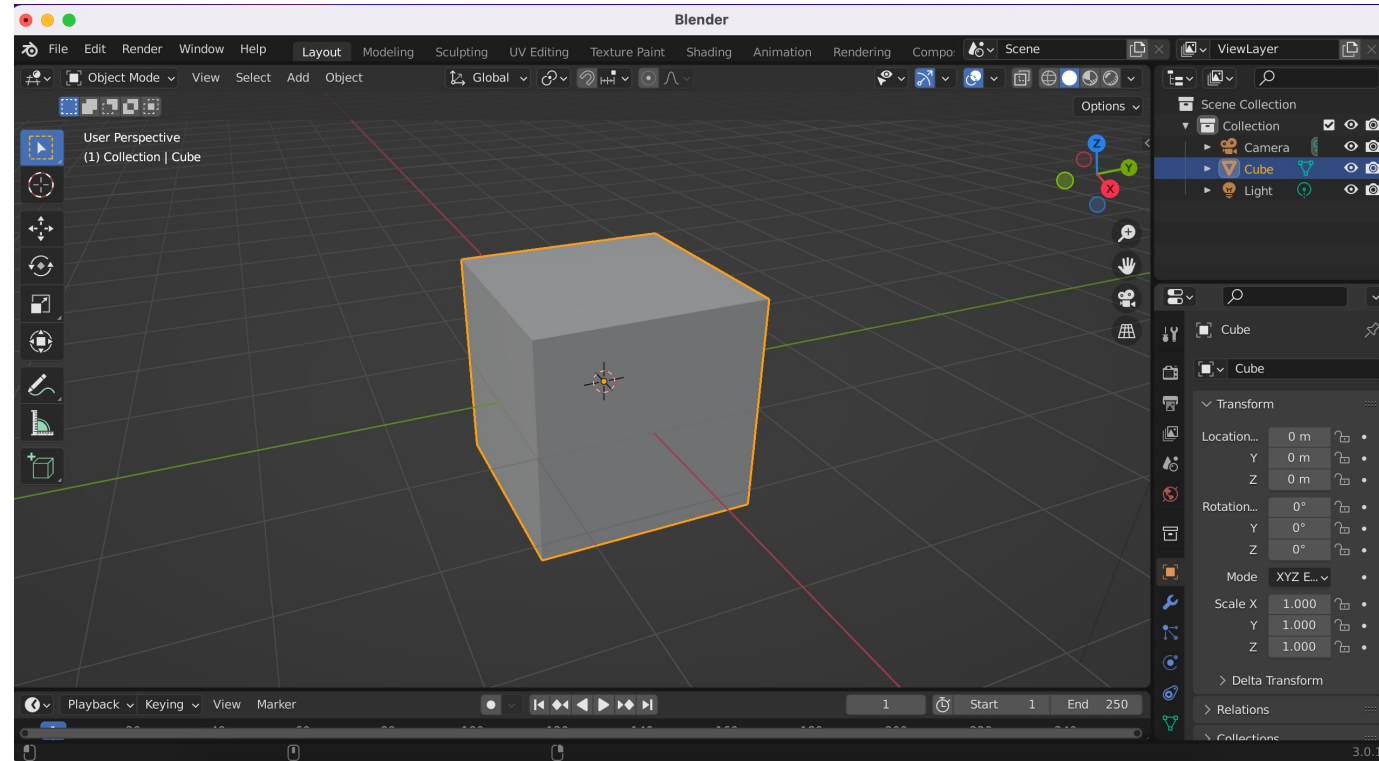

# 02 - Implement your design with a Blender Addon

- Archimesh by Antonio Vazquez

# Hello Blender 1

## Basics - Interface & Operations

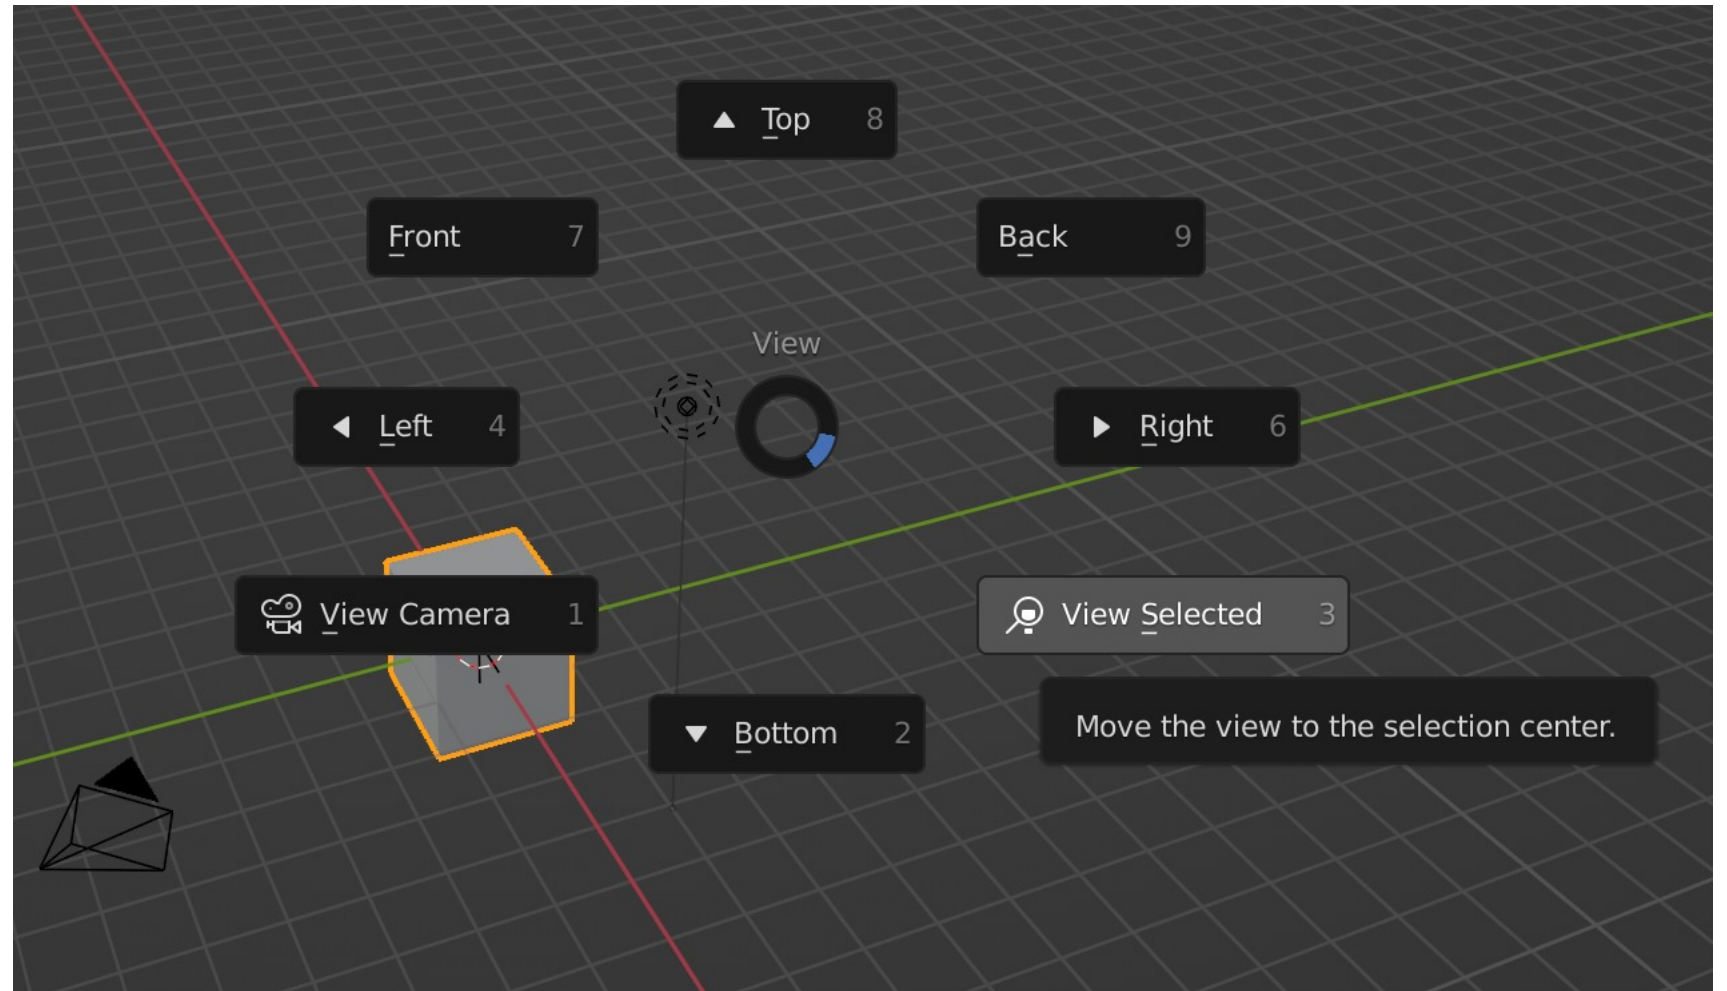

- 1> Create and save a new File
- 2> Select, Delete - Mouse clicks
- 3> Undo, Redo
- 3> Move around the 3D Space - Pan, Rotate, Zoom

Hello Blender

Useful Tip:

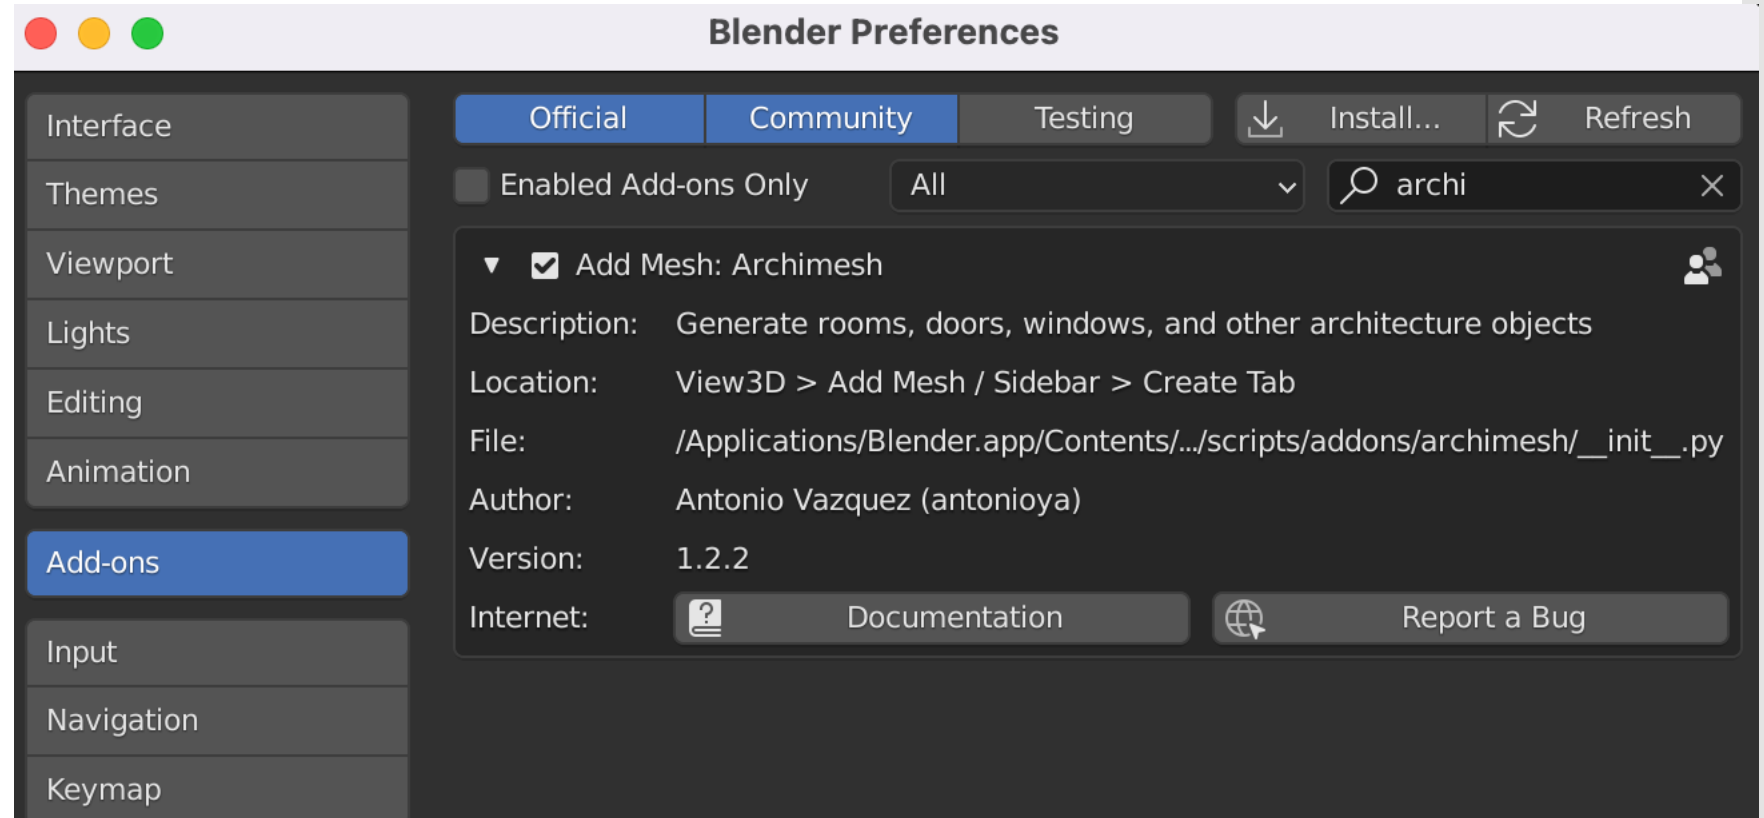

~ +

*View Selected*

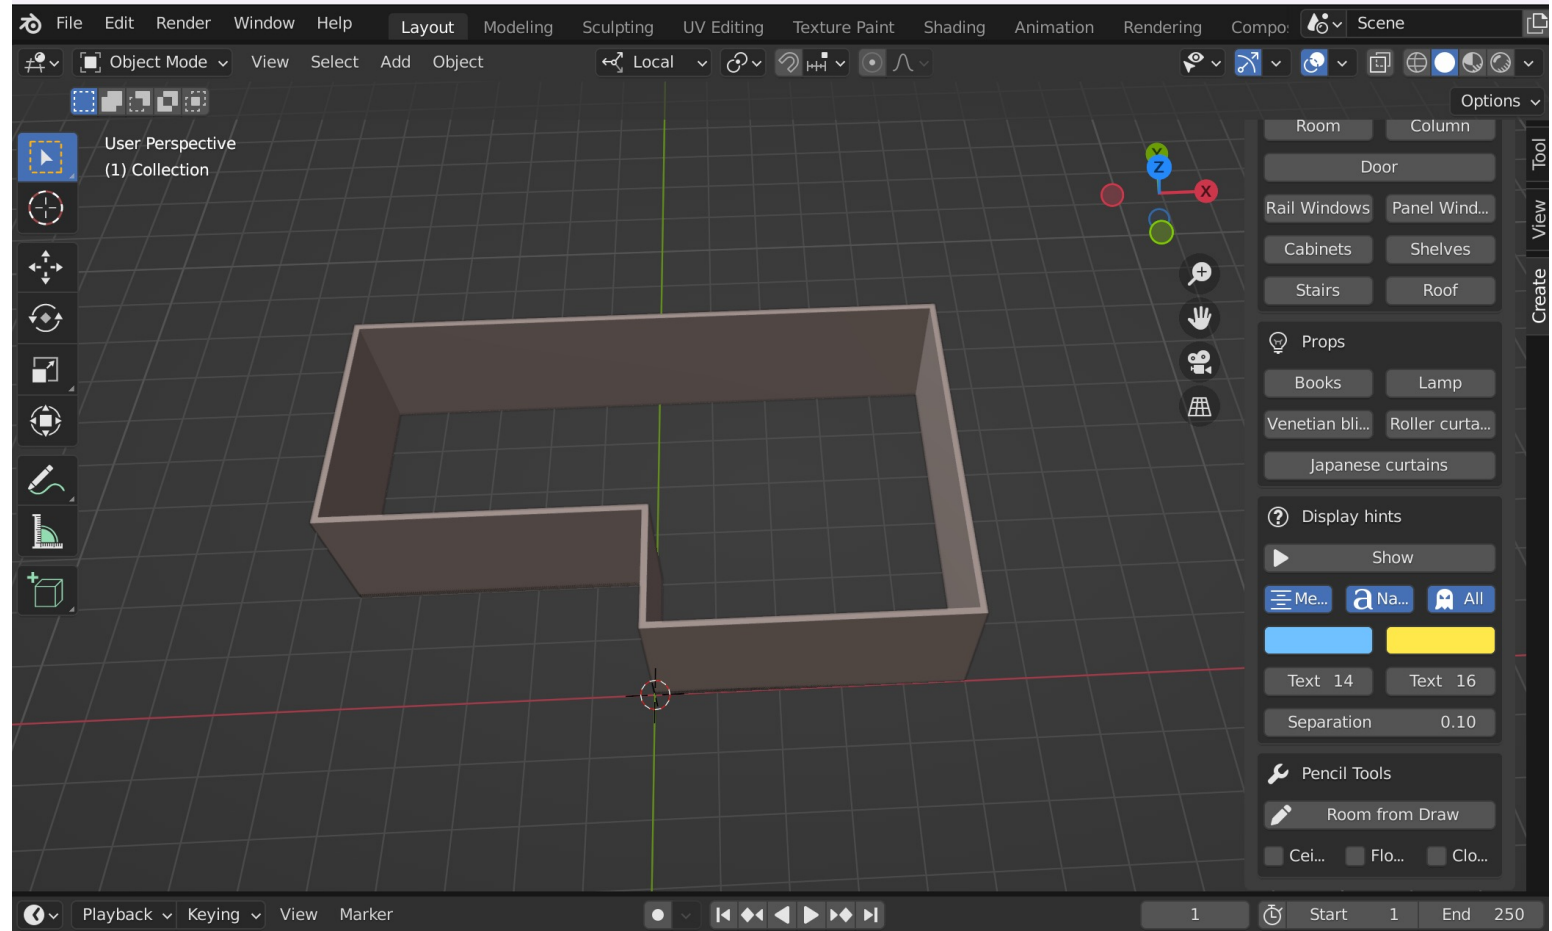

## Project - Step 2

### (a) Enable Archimesh in Blender

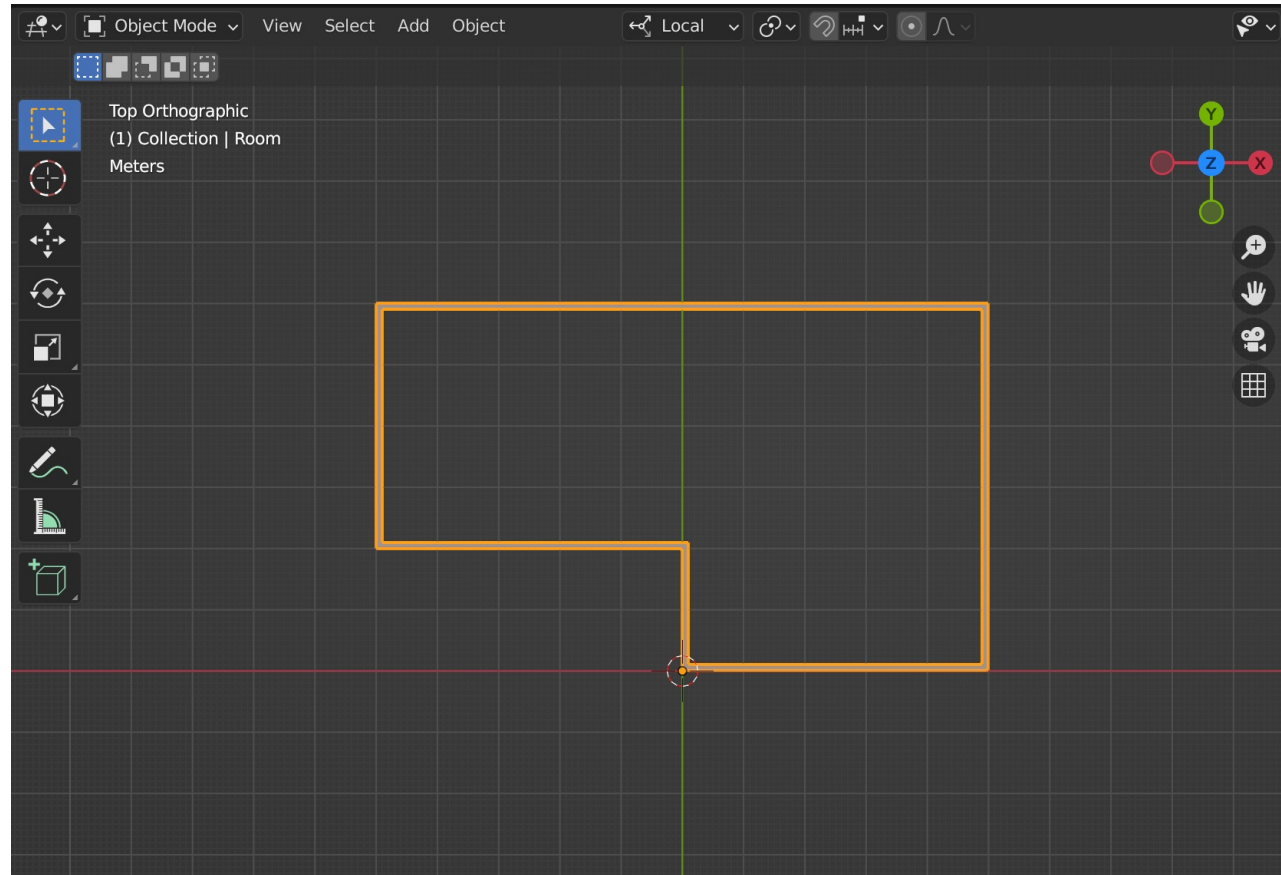

(b) Create the walls

## Hello Blender 2

# Basics - Move a 3D object in 3D space

1> X / Y / Z 3 Axis

2> Top / Left / Front View

3> Shortcut 'G' + x / y / z key

## Project - Step 3

### (c) Add a Door

Move the door along an axis (X in this case)

Hello Blender 3

## Basics - Rotate an object & Use 3D Cursor

1> X / Y / Z 3 Axis

4> 3D Cursor

2> Top / Left / Front View

3> Shortcut 'R' + x / y / z key

## Project - Step 3

(d) Add  
Windows

Use 3D cursor, Rotate along Z axis

# Play time

It's not that different from Lego 😊

Project

Bonus

# Some Good Learning Resource

## Blender 2.9 3D Architecture 1- Build a Simple House
